in rui-pedro-alves

Software development and architecture enthusiast. Passionate about teaching and learning new things. Keen on optimization, and on solving intricate and complex problems.

EXPERIENCE

Kevel

Porto, Portugal (Hybrid)

Senior Site Reliability Engineer

Dec 2024 - Present

- Designing and implementing cross-organization solutions to improve Kevel's software quality and reliability.
- Responsibilities include leading Infrastructure as Code migration initiatives, embedding in teams to lead infrastructure management improvements, managing cross-organization security scanning and monitoring solutions, designing and automating the implementation of engineering quality standards.
- AWS, Terraform, CloudFormation+CDK, CI/CD (GitHub), Datadog, Kubernetes, Docker, TypeScript, ...

Software Engineer / Site Reliability Engineer

Oct 2022 - Dec 2024

- Working on the Kevel Audience and Kevel AdForecaster products.
- Responsibilities include developing backend services using functional programming in Scala, leveraging AWS cloud solutions to architecture and deploy the Kevel Audience product, automating CI/CD workflows, and designing/implementing security scanning and reporting solutions.
- Scala, Terraform, Kubernetes, AWS, CI/CD (GitHub Actions), Docker, NodeJS and Bash scripting

Palantir Technologies

London, United Kingdom

Software Engineer

Aug 2021 - Oct 2022

- Working in the Backend Infrastructure team, building foundational software for Foundry, Apollo and Gotham.
- Responsibilities include leveraging Gradle to manage the Java Infrastructure across the fleet, developing and maintaining Java services that facilitate products' Security Scanning, and designing and administrating systems to automate source code repositories' health and engineering quality.
- Java, Gradle, Groovy, Docker and Docker-Compose, Bash scripting, CI/CD (CircleCI and Palantir Apollo).

EDUCATION

FEUP - Faculty of Engineering, University of Porto

Porto, Portugal

BSc and MSc Degree in Computer Engineering

Aug 2016 - Jul 2021

Final Grade / GPA: 19/20

Rio Tinto High School

Porto, Portugal

Sciences and Technologies

Sep 2013 - Jun 2016

Final Grade / GPA: 19/20

CERTIFICATIONS

AWS Certified SysOps Administrator

Amazon Web Services

Advanced network management, reliability, security and monitoring solutions

Dec 2023

Terraform Associate Cloud Engineer

HashiCorp

Infrastructure as Code development, management, lifecycle and quality

Jul 2023

AWS Certified Cloud Practitioner

Amazon Web Services

Basic cloud computing principles, development, and management

May 2023

INTERNSHIPS

Fraunhofer Portugal

Porto, Portugal

DevOps and Software Engineering Intern

Jun 2020 - Aug 2020

- Designed and automated deployment architecture of the internal project and personnel management platform.
- Responsible for DevOps activities, such as configuring CI/CD, architecting services for multiple environments, orchestrating service containers and managing cloud testing, staging and deployment environments.
- Ruby on Rails, Nginx, MySQL, Docker and Docker-Compose, Jenkins.

Fractal

Porto, Portugal

Full-Stack Software Engineering Intern

Jul 2019 - Sep 2019

- Took part in the development of an OAuth platform (Log in with Fractal ID) with KYC/AML regulation.
- Responsible mostly for Backend development, configuring mailer services, improving test suites and DevOps tasks such as Docker and CI tools configuration. At the Frontend level, refactored several components.
- Ruby on Rails, ReactJS, Redux, Docker, CI tools configuration.

Fraunhofer Portugal

Porto, Portugal

Full-Stack Software Engineering Intern

Jul 2018 - Sep 2018

- Developed a web app video player component that allows video streaming, manipulation and live annotation.
- Responsible for investigating different implementation options, implementing a Backend API that supports video streaming and annotation and integrating it the aforementioned video component.
- Java Springboot, Jersey, Morphia, ReactJS, MobX and VideoJS.
